Trainings and Trainers to look out for.

These are people who give excellent in depth trainings on various aspects of Aspergers and PDD. Many are local heroes in the field of autism all present nationally. If this presentation has peaked your interest anyone of the trainings provided by the following people will be a good next step:

Tony Attwood-one of the top writers, researchers and interventionists in the Autism field. He should be coming to New England in 2007.

Carol Gray the creator of social stories gives an excellent account of how to use them and cartoon conversations in her trainings as well as an array of practical interventions for these children.

Dot Lucci is a local expert on various aspects of autistic spectrum disorders.

Elsa Abele is a local legend in the area of social skills groups for children on the spectrum. Most if not all of her ideas are applicable to general therapeutic groups for spectrum kids. She has a wealth of knowledge and experience.

Teresa Bolick is psychologist in New Hampshire with a practice focused on Autistic disorders and developmental disabilities. She gives excellent presentations on assessment, diagnosis and intervention.

Any trainings for The Yale Child Study Center particularly those led by **Fred Volkmar** or **Ami Klin** are excellent. Websites, Writings and other materials from Yale are very interesting they are on the cutting edge of Autism research.
